3R3020

GRAPHITE LUBRICANT

Excellent aerosol dry-film lubricant that prevents sticking and seizing. It air dries quickly, can be applied to metal, wood and plastics. The 3R3020 provides a smooth film and resists to various temperatures of -30°F to 800°F. Also, it is not greasy, is non-flammable, it conducts electricity without being magnetic. The propellant is "ozone friendly" since the environmentally harmful CFCs have been eliminated. This material is available in 12 oz aerosol cans.

APPLICATIONS

The 3R3020 can be used for a multitude of applications :

- Gates
- Transfer wheels
- Coating dies for storage
- Monorails
- Printed circuits
- Hose reels
- Belt & chain guides
- Release coating for core boxes
- Turnstiles
- Mold release
- Spark plug threads
- Winch drums
- Truck roll-up doors
- Garage doors
- Overhead crane rails
- Extrusion dies (Storage & break-in)
- Static bleeding Press fitting

SPECIFICATIONS

Physical properties

Physical Properties	<ul style="list-style-type: none">Air dries quickly-requires no bakingCan be applied to all metal, wood and plastic surfacesGreaseless, oil-free - will not pick up dirt or gritElectrically conductive, non-magneticGood lubrication, metal release, anti-weld
----------------------------	--

Commonly Used for

Commonly Used for	Gates Monorails Hose reels Turnstiles Mold release Winch drums Garage doors Sliding doors Exhaust ducts Chain saw bars Static bleeding Transfer wheels Printed circuits Belt & chain guides All types of Chains Spark plug threads
Commonly Used for (2)	Trock roll-up doors Ventilation louvers Overhead crane rails Outside bulb sockets Fork lift track masts Press fitting Coating dies for storage Remote control equipment Release coating for core boxes Flash pins - stack bar fingers
Commonly Used for (3)	Aircraft metal - to- Metal surfaces Automatic electric switching gears Open Gears on construction cranes Extrusion dies (Storage & break-in) Meter parts (Parking, water) Office furniture & Equipment mechanisms
