DURLON® 9000

DURLON®

The Durlon® 9000 is manufactured from PTFE resin dispersed equally in a solution of inorganic binder giving it its physical and mechanical properties.

APPLICATIONS

The Durlon® 9000 is a perfect sealing material in presence of aggressive chemical products. This product can be use in chemical, pulp and paper and food industries when aggressive chemicals are present.

This material is suitable for use in steel flanges. It cuts easily, it is flexible and separates cleanly from flanges after use.

SPECIFICATIONS

Technical Data

pH	0-14
Color	Blue
Temperature	-350°F à 520 °F
Maximum pressure	1500 psi
Compressibility ASTM F36	8-16%
Recovery ASTM F36	40%
Tensile strength ASTM F152	2000 psi
