# KC2200

## KEVLAR 22 OZ

The KC 2200 is made of an outer layer of aramid fibers and an inner core of fiberglass. Highly resistant to abrasion, mildew and chemicals, it conserves its thermal properties and has a breaking strength for temperatures up to 600°F.

### APPLICATIONS

This flexible and lightweight fabric is used in the fabrication of expansion joints, conveyor belts, security clothing, to cover hoses and cable insulation.

### SPECIFICATIONS

#### Physical properties

Temperature	315°C (600°F)
-------------	---------------

#### Technical Data

Thickness	0.080"
Width	40" or 60"
Length	50 yards
Weight (on/vg <sup>2</sup> )	22

**N.B.** The information, details and values indicated are to the best of our knowledge. We recommend to conduct tests according to local conditions. The data is subject to some variations without notice.
