KC2200DRX

KEVLAR

The KC 2200DRX is made with aramid yarns and a fiberglass core. Very resistant to abrasion, mold and chemical agents, it conserves its thermal properties and its tear resistance up to 600°F. This material possesses an efficient treatment to ease cutting and sewing operations.

APPLICATIONS

This fabric is used in the fabrication of expansion joints, conveyor belts, security clothing, hose covering and cable insulation.

SPECIFICATIONS

Physical properties

Temperature	315°C (600°F)
-------------	----------------------

Technical Data

Thickness	0.080"
Width	40" or 60"
Length	50 yards
Weight (oz/yd ²)	22
