SILIPST

SILICONE TAPE

This self-adhesive tape adheres very well to the silicone tape TXP125S and to the silicone tubing TXP660S. It resists to a maximum 475°F continuous temperature. For best results, we recommend stretching the SILIPST tape during installation for adequate sealing.

APPLICATIONS

Mostly used to cover seals and to seal extremities, it also prevents oil and other residue infiltrations within the tubing.

SPECIFICATIONS

Technical Data

Silipst - 16	
Width	1"
Thickness	0.020"
Tensile strength	Poor
Silipst - 24	
Width	1-1/2"
Thickness	0.060"
Tensile strength	Moderate
Silipst - 16TR	
Width	1"
Thickness	0.020"
Tensile strength	Excellent
