TXP415

SILICONE COATED FIBERGLASS

The TXP415 is a satin weaved fiberglass fabric coated with a silver rubberized silicone. It resists to temperatures up to 500°F, abrasion, flexing, tear and puncturing. It protects from water, oil and chemical products and generates little smoke.

APPLICATIONS

This cloth is often used in the fabrication of spark and molten metal splash protective curtains, removable blankets, expansion joints and flange covers.

SPECIFICATIONS

Technical Data

Color	Silver
Weight	15 oz/yd²
Thickness	0.018"
Temperature	Continuous: 260°C (500°F), Short term: 540°C (1000°F)
